

Founded in 1999, Transforming Faces celebrates our local partners' impact in caring for children born with cleft lip and palate.

Our Mission

- We equip **local** teams to provide **comprehensive** cleft lip and palate care that is accessible for all.
- Together we are building happier, healthier lives for children and families in **Africa, Asia, and the Americas and beyond.**

Our Vision

- Our vision for children with cleft lip and palate is full inclusion into their community, so they can pursue their hopes and dreams.

Our 100% Promise

We direct 100% of all charitable donations directly towards delivering comprehensive cleft care for children and families, thanks to a private charitable foundation that covers all of TF's administrative costs.

TF's Circle of Cleft Care demonstrates the treatments that cleft children and families access from infancy into early adulthood.
